TITRE	Anaérobie
DESCRIPTION	Étanchéité plane, moyennement flexible
NOM	LOCTITE 5127
CONDITIONNEMENT	Cartouche 300 ml
COMMENTAIRE	
APPROBATION*	

↳ Description

LOCTITE® 5127 is a blue methacrylate ester acrylic paste which improves flange-sealing reliability. After curing between mating metal flanges, it provides a tough, resilient, solvent and temperature resistant seal that flexes with flange movements caused by vibration, pressurization or thermal changes. Typical applications include making gaskets for pumps, housings, axle covers, etc.

↳ Avantages

Overcomes the shortcomings of pre-cut and other formed-in-place chemical gaskets
Provides a tough, resilient, solvent and temperature resistant seal
Flexes with flange movements caused by vibration, pressurization or thermal changes
Can be used instead of conventional gaskets
Can also be used to repair damaged conventional gaskets or as a coating/dressing for conventional gaskets

↳ Caractéristiques

Methacrylate ester acrylic paste which improves flange-sealing reliability. It provides a tough, resilient, solvent and temperature resistant seal

CARACTÉRISTIQUES PRODUIT

Marque	LOCTITE
N° Ean13	4058093008355
Poids	380 g
Conditionnement	1
