Description

TEROSON® RB R2000 HS is a rubber- and resin-based over paintable coating product for preserving and complementing existing underbody coatings and spot repairs. It enhances abrasion resistance on visible underbody car parts and is ideal for reproducing OEM textures. Its compatible with all OEM coatings and is easily applied with the TEROSON ET UBC GUN or the TEROSON ET UBC MULTI SPRAY GUN.

Avantages

Ideal for preserving and complementing existing underbody coatings and spot repairs
 Reproduction of all OEM textures
 Extended life for underbody protection
 Coating of primed, surfaced metals or painted parts
 High solid content - excellent abrasion resistance
 Slightly flexible properties even in cold conditions; no cracking
 Over paintable

Caractéristiques

Rubber- and resin-based over paintable coating product for preserving and complementing existing underbody coatings and spot repairs.
